Electronic Pan-European Learning System for Sustainable Agribusiness
MBA Education

E-AgriMBA Project: progress

- E-agriMBA Learning Platform was launched;
- Materials of 9 courses were prepared and uploaded on the platform;
- New MBA program in Moldova is running since 2023;
- A new online learning room funded at Technical University of Moldova
- Project PAGE: [MBA Education \(sggw.pl\)](https://eagrimba.sggw.pl/)

Unlocking the AgriMBA Network Across Borders

The e-AgriMBA project develops an online Learning System for sustainable MBA Education in Agribusiness. It also expands the course portfolio of existing MBA programs and implements a new AgriMBA program in Moldova. The project is implemented by 7 universities for the benefit of the entire International AgriMBA Network, which creates, monitors and accredits MBA programs in the field of agribusiness and commerce since 1994.
